

New Evo Vela Wood

Nuova cerniera a scomparsa
per porte in legno

New hideaway hinge for wooden doors

845E10

845E20

Nuova cerniera oleodinamica a scomparsa, per porte in legno con profili in battuta. La prima cerniera di Colcom completamente “nascosta” e adattabile ad ogni progetto su richiesta del cliente. Mantiene le consuete e garantite caratteristiche delle cerniere chiudiporta della serie Biloba Evo. Chiusura Oleodinamica. Personalizzabile per soddisfare ogni progetto specifico del cliente. La cerniera superiore si accompagna ed è abbinata a quella inferiore dedicata.

Caratteristiche

- **Regolazione della velocità di chiusura**
- **Misure minime di ingombro 25x25 mm**
- **Stop a 90°**
- **Personalizzabile su richiesta del cliente - OEM**

New hidden oildynamic doorcloser hinge, for framed wooden doors with a stop The first Colcom hinge which is completely hidden, and adaptable to every project upon customer request. It maintains the same features as the Biloba Evo series hinges. Hydraulic Closing. Customizable, in order to satisfy every specific project. The installation of the upper hinge is completed by the dedicated hidden lower hinge.

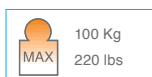

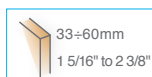

Features

- **Adjustability of the closing speed;**
- **Minimum dimensions 25x25 mm;**
- **Stop at 90°**
- **Customizable upon customer's request – OEM.**

845E10

Biloba Evo VELA Wood oildynamic hinge

• Cerniera oleodinamica a terra a scomparsa. Per porte con frame in battuta. Velocità di chiusura regolabile e controllo costante di frenatura; permette un'apertura porta fino a 180°. Stop a +90°, anche a 180° secondo progetto parete.

• Bisagra hidráulica oculta de suelo. Para puertas batientes con marco. Velocidad de cierre ajustable y control de frenado constante; permite abertura de puerta hacia 180°. Stop a +90°, también a 180° dependiendo del proyecto de pared.

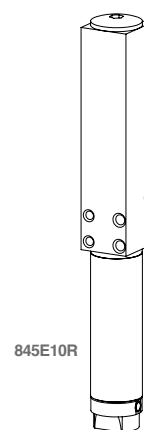

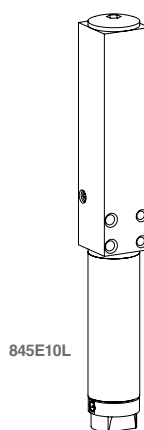

• Hidden bottom hydraulic hinge. For framed doors with a stop. Adjustable closing speed and constant braking control; the door opens up to 180°. Stop at +90°, and at +180° according to wall project.

• Einklapbares Bodenhydraulikband. Für Anschlagtüren mit Rahmen. Regulierbar Schließgeschwindigkeit und konstanter Kontrolle der Bremsung. Öffnung der Tür bis 180°. Feststellung +90° und +180° (nach Wandprojekt).

• Charnière hydraulique inférieure rétractable pour portes avec profil d'arrêt. Contrôle constant de la vitesse de fermeture; elle permet une ouverture de la porte jusqu'à 180°. Arrêt à +90°, mais aussi à +180° selon le type de paroi.

845E10 R = destra - derecha - right - rechts - droite

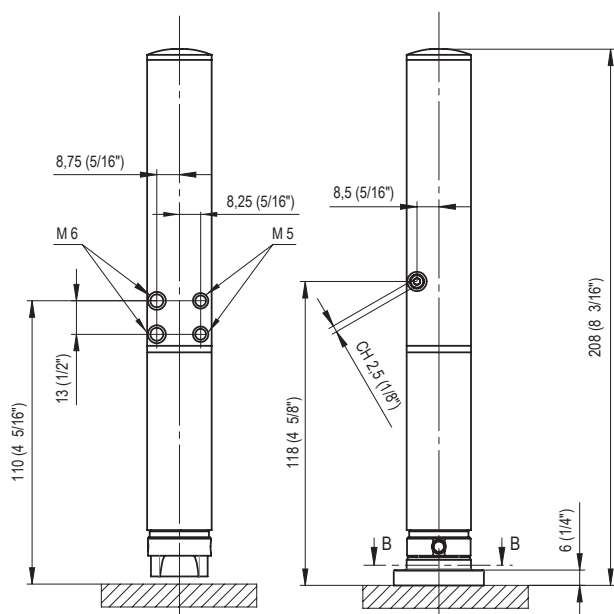

845E10 L = sinistra - izquierda - left - links - gauche

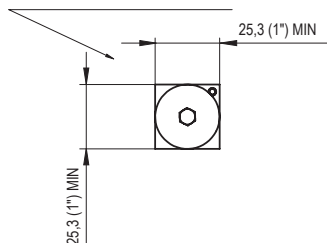

*

• È necessaria una battuta in chiusura in quanto la cerniera ha una precarica. • Necesita de un cierre con tope, puesto que la bisagra tiene una precarga. • The hinge has a loading and it is therefore necessary a closing stop. • Eine Schließfeststellung ist notwendig, weil das Scharnier eine mechanische Belastung hat. • La charnière a une charge, il est donc nécessaire d'avoir un arrêt de fermeture.
